

## Prioritizing Patient Care Using expEDlum Office EHR

With over a decade of experience working closely with practices in the PMS and RCM field, we decided to expand our expEDlum Suite of Products to better serve our clients and partners in the Electronic Health Records (EHR) field offering specialty agnostic features. Introducing expEDlum Office EHR – it's a secure, cloud-based EHR solution that complies with HIPAA regulations.

Whether you're a solo practitioner or part of a larger practice, we're here to streamline your clinical workflow, manage patient records efficiently, and enhance overall patient care by leveraging AI on our intuitive EHR platform.

## Clinician-Insight Based Features That Serve You Better

expEDlum Office EHR product reimagines user interface and experience, delivering a responsive design that promises ease of use and a boost in productivity.

**Scalability**
- 
**Customized Templates**
- 
**Integrated RCM**
- 
**Reporting and Analytics**

## Experience Benefits Tailored Just for You

### Effortless Practice Management

Seamlessly handle patient records, appointments & visits, prescriptions ensuring smooth operations and workflow efficiency.

### Informed Care at Your Fingertips

Access lab results and generate insightful reports, empowering data-driven decisions for improved healthcare outcomes.

### Streamlined Organization

Easily accessible tasks, documents, and templates in one place for efficient practice management practices.

### Seamless Communication

Secure messaging and interoperability with healthcare partners, promoting coordinated care for improved patient outcomes.

### Improved Revenue

Integrated seamlessly into expEDlum Medical Billing, our PMS/RCM product includes an AI-based Denial Management feature. It enhances the likelihood of successful denial appeals, increases productivity, reduces billing errors, thus increasing your reimbursement.

### Support and Training

We're here whenever you need us! Count on our dedicated support and training options, including onboarding help, to ensure your success in running your healthcare practice.

# Your Data Is Safe With Us

## ✓ Rigorous HIPAA Compliance

We adhere to the Health Insurance Portability and Accountability Act (HIPAA) standards, ensuring your practice fully complies with regulatory requirements. Additionally, we provide seamless support for X12N EDI to streamline your administrative processes and make your operations run even smoother.

## ✓ Secure Cloud Environment

Patient data safety is our priority. Rest assured, we've implemented top-notch security measures to protect their sensitive information. It's all securely stored in the cloud, with robust defenses against any unauthorized access.

\$2+ Billion Claim Charges
